

Seconds On End

Proud to flaunt their Golden State roots, Seconds On End follow in the footsteps of all the great California rock groups gone by. Fusing elements from varying genres, 60's psychedelic rock to funk, reggae and everything in between, they create a sound that is wholly their own.

After 3 albums, hundreds of shows and and over 10,000 downloads on archive.org and itunes Seconds On End has created a style of music that showcases their shared chemistry and stylistic breadth.

"Seconds On End are an ensemble graduating from high amateur status into the pros"

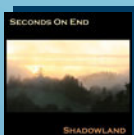

Mark Tucker, Folk and Music Exchange

"These players are first rate string wizards, the vocals are top-notch, and it clearly comes straight from the heart. "
